## PRISMATIC POLYCARBONATE FRISM SOLID SHEET

### Packaging & Delivery

Packaging Details: PE film protection on both side, pallet package as customized

### Prismatic Pattern Polycarbonate Solid Sheet

Prism pattern light diffusion polycarbonate sheet is Chiancess patented products. The special optical prism design make the sheet receive the effect of light scatter even without use of astigmatisc technology.

At the same time, light transmission is almost close to nomal transparent sheet, energy-saving obvious.

Astigmatism effect, can not see the blacklight

Combining with LED light can get the effect of color change

Good weather resistance and UV protection

Very high impact strength

Good light transmission Lightweight,Simply installed

Meet different fire protection standardard
