Panel HPL

HPL PANEL compact laminate is a structural panel faced with two sides decorative surfaces. For its high strength, impact, water and humidity resistance, it is ideal for interior use such as wall panels, toilet partition, counters, lockers and furniture. It could be drilled, tapped, sanded, shaped and cut with standard carbide tipped tools. The rich colors of compact laminate make it outstanding in decoration.

It has the excellent characteristics of the high pressure laminate that is:

- 1.wear resistant,
- 2.compression resistant,
- 3.heat resistant,
- 4.acid and alkali resistant,
- 5.burning smoking resistant,
- 6.bacteria resistant,
- 7.mould resistant,
- 8.water proof,
- 9.Fire-proof,
- 10.easy to clear.

Decorative melamine kraft paper laminated decorative fireproof hpl board

Hpl decorative board is a surface decorative building material. It is made up of decorative color paper and kraft paper through dipping, drying, pressing according to the pattern of decorative color paper on top and kraft paper on the bottom. The number of kraft paper sheets depends on the thickness of the sheet required by the customer, then placing in a high temperature and high pressure machine, applying 1430 pounds of pressure per square inch at a high temperature of 300 degrees Fahrenheit (about 150 degrees Celsius), continuously and evenly pressing for one hour, and then trimming, sanding, quality inspection and other steps.
